

How to download and install Documate software in MAC OS and create an alias for it (create shortcut).

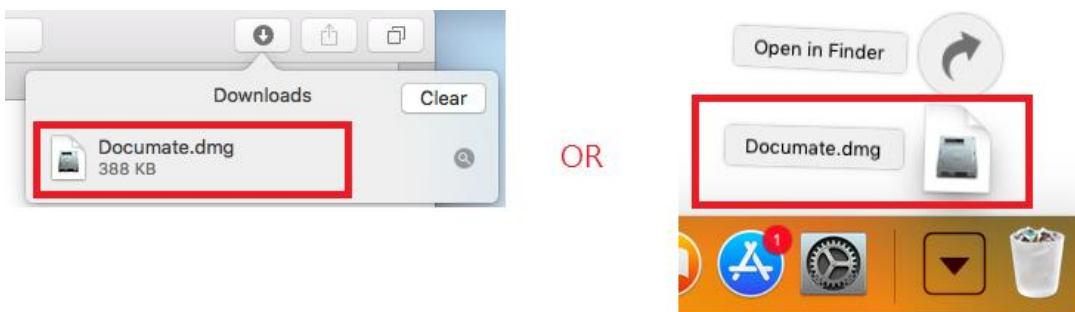

1. Visit <https://www.inswan.com/downloads> and click on **DOWNLOAD** button under the option of **Documate (MAC Version)**

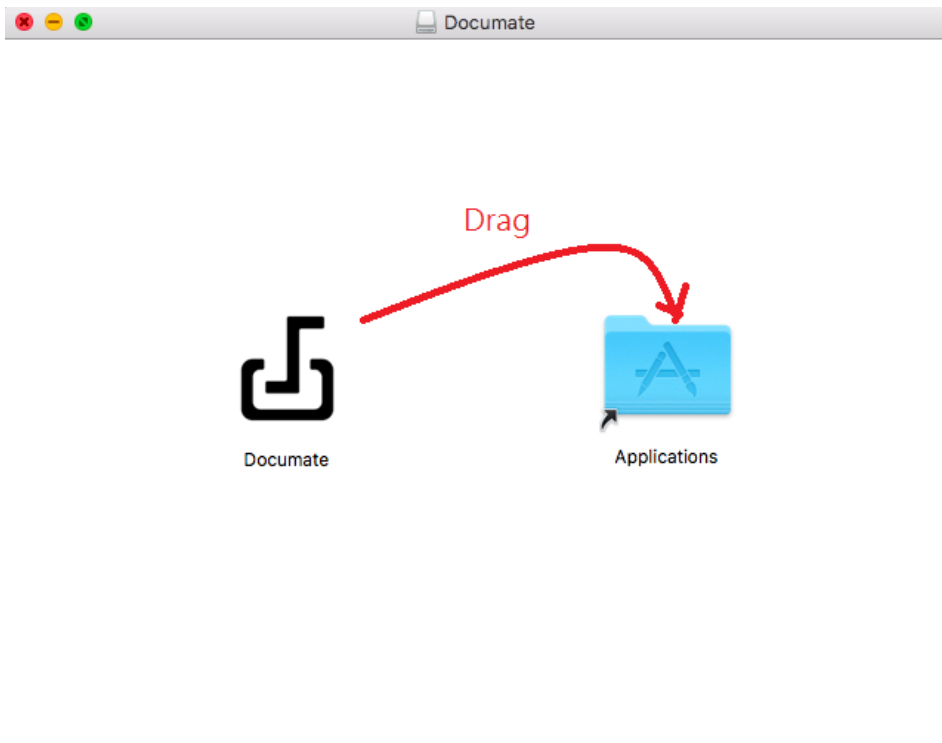

2. Click on the **Downloads** button.

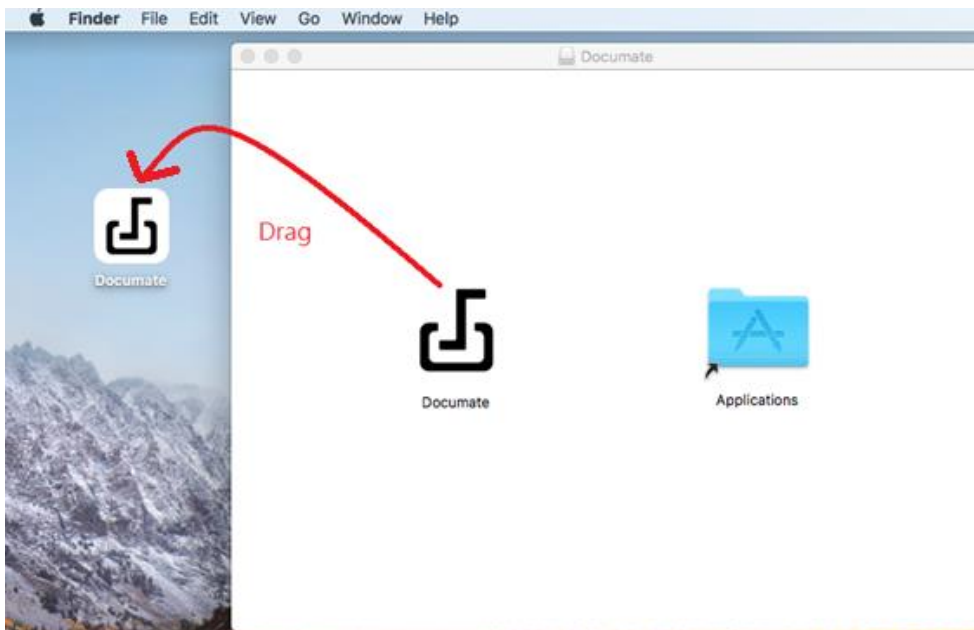

3. Click on the **Documate** software.

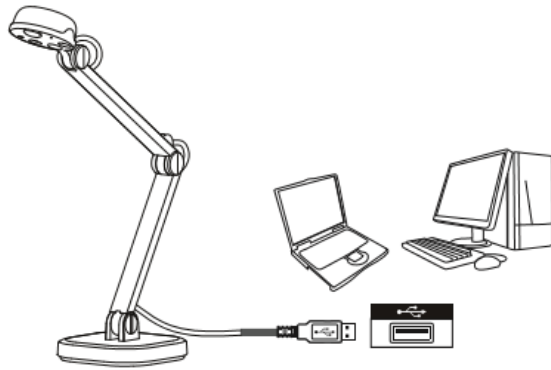

4. Drag the **Documate** software to the **Application** folder to finish the installation.

5. Drag **Documate** software to your desktop for future use.

6. Connect your INS-1 to your computer via the USB cable.

7. Double-Click on the **Documate** shortcut on your desktop to open the application.
